

LUKAS EGKHER

I recently completed my MSc in Autonomous Systems at DTU. My master's thesis with DSB focused on optimizing rolling stock assignments for railway operations. I want to use my background in mathematics, programming, and problem-solving to work with process automation and optimization, developing practical solutions that make systems more efficient.

Personal info

- +45 50150369
- lukas@egkher.at
- LinkedIn
- Personal website

IT-Skills

- Python, C#, SQL, Julia, R, MATLAB
- MSOffice, $\LaTeX$
- Adobe Premiere Pro

Projects

- Implemented a fully autonomous robot for DTU Robocup (YouTube)
- Built MAMBA-based state-space model for EHR mortality prediction
- Built 3D tracking for passengers, bikes, cars (YouTube)

Languages

- German (native)
- English (fluent)
- Danish (beginner)

WORK EXPERIENCE

Management Consulting Partners

Full-time, Software developer

MAY 2023 - AUG 2024

- Actively involved in the development of customized software solutions for customers, including
 - Management of workshops to gather requirements
 - Offering expertise for scheduling with APS
 - Data visualisation for customers
- Engaged in hands-on C# programming and SQL scripts, translating conceptual designs into robust and efficient applications
- Proactively identifying and addressing complex challenges, continuously optimizing software performance for enhanced functionality

University of Natural Resources and Life Sciences

Part-time, Study assistant

APR 2022 - DEC 2023

- Actively contributed to a project analyzing the impact of experimental debris flow impact on bridge superstructures:
 - Conducted in-depth calculations
 - Integrated into the evaluation and analysis of data
- Organised a 2-week children's university event

EDUCATION

MSc in Autonomous Systems, DTU

COPENHAGEN SEP 2024 - AUGUST 2026

- Optimization of real-world systems and processes
- Mathematical modelling and formulation of large-scale optimization problems
- Implement algorithms and decision-support solutions
- Develop and optimize neural networks + data analysis

BSc in Statistics and Mathematics in Economics, TU Wien

VIENNA OCT 2020 - DEC 2023

Thesis subject: Prediction of ENSO events using a STAR model
Extension programme: Digital skills (30 ECTS)

STUDENT/VOLUNTEER JOBS

CopenHill

Part-time, Lift responsible and event coordinator

SEP 2024 - AUG 2026

Feuerdorf Restaurant

Part-time, Waiter, electrical work, and restaurant setup assistant

AUG 2021 - FEB 2022

Austrian Armed Forces

Full-time, Extended military training and rank as non-Commissioned Officer

SEP 2019 - AUG 2020

ORF (Austrian Broadcasting)

Full-time, Internship enhancing sustainability and planning studio assignments

AUG 2018

Youth group leader

Guiding children weekly and leading annual summer camps

SEP 2018 - AUG 2024
